### AN AKRON MAN.

MR. WILLIAM F. STEESE. Mr. William F. Steese, 701 Coburn St.,

Akron, Ohio, writes: "I have been troubled for several years with catarrh of the stomach. Have used different patent medicines

to no effect whatever, and have doctored considerable with family doctor. "Sometimes his treatment would relieve me for a few weeks, but would eventually have to go back to him, and that had kept up for several years.

"I was advised to use Peruna, and have taken three bottles. Never felt so good in my life. Am going to continue using it. Wouldn't be without it in the house. I will gladly recommend it to any one afflicted with catarrh of stomach, or stomach trouble of any kind."

The above is an oft-repeated story, Troubled for years with chronic caney trouble and avoid a serious tarrh. Tried different remedies and malady.—C. C. Bingham. Troubled for years with chronic cadoctors to no avail. Peruna was advised by friends. Instant relief experienced. Great gratitude to Peruna expressed. This, in brief, is a story that is repeated to us a great many times every year.

No one could be in touch with our vast correspondence for one month without being impressed with the sincerity and truthfulness of these kind of testimonials.

Peruna promptly produces an appetite, corrects digestion and relieves stomach difficulties that have resisted other treatment.

DECISION REVERSED.

U. S. Supreme Court Decides that Mail Order Business Is Inter-State Commerce.

The United States Supreme Court has recently rendered a decision involving a question of interstate commerce which is of local interest. It was in the case of International Textbook Company v. Conneil R. Lynch of St. Johnsbury, and in which G. C. Frye, Esq., was attorney for the Textbook Company and Howe & Hovey attorneys for Mr.

, Suit was brought by the Textbook Company, which controls the International Corespondence schools of Scranton, Pa., on a contract in which the plaintiff agreed to furnish lessons and instruction by correspondence and for which the defendant refused to pay. The plaintiff was given judgment in Caledonia county court and the defendant took the case up to the Vermont Supreme court on the question whether the plaintiff had a right to bring and maintain an action in this state on the contract, as it had not paid a corporation license tax to do business in the state, which the laws of Vermont provide shall be done before a foreign corporation can do business here or maintain an action brought in conection with such business.

The plaintiff contended that the business of the plaintiff in sending instruction and lessons through the mails from Scranton to St. Johnsbury was interstate commerce and that the laws of Vermont compelling a license tax to be paid before it could do business here laid an indirect tax on such business and was Mr. and Mrs. G. Do you know that a grammar school education increases a boy's or a man's earning capacity by 50 per cent., that a high school education adds 100 per cent, to his earning power, and a college education 200 per cent.? Each school day well put in is

worth \$10 to a boy in the course of his life. Government statistics prove it. Here are the

To get this requires twelve years of schooling, 9 months per year, 20 days per month, or 2,160 days.

\$22,000 divided by 2,160 days gives a quotient of \$10 value of each day's schooling. tient of \$10, value of each day's schooling and training."

If most boys knew this in time there would be fewer men who are struggling along, trying to ahead but handicapped by lack of education. The Young Christian Association wants to do its share in meeting such needs. Lack of schooling and education

draws that "dead line" between failure and success. Most every young man if he lacks the education that he needs, discovers it sooner or later. He sees other fellows forge ahead of him.
